Election/Restriction

1. Claims 1-18 are pending in this application.

Restriction to one of the following inventions is required under *35 U.S.C. 121*:

- (I) Claims 1-3 and 15-18, drawn to a system of wafer stacking, [class 257, subclass 686];
(II) Claims 4-14, drawn to a method of forming a wafer system, [class 438, subclass 109].

2. Inventions I and II are related as product made and process of making. The inventions are distinct if either or both of the following can be shown: (1) that the product as claimed can be made by another and materially different process or (2) that the process as claimed can be used to make other and materially different product (MPEP § 806.05(f)).

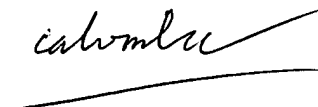

In this case: (Group I compared to Group II) the packaging semiconductor system of wafer stacking can be formed not only by the claimed method of forming the stacking but also by other semiconductor process/methods, and vice versa.

3. Applicant is advised that the reply to this requirement to be completed must include an election of the invention to be examined even though the requirement is traversed (37CFR 1.143).
